SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an Order, dated January 19, 2023, denying the petition to object to a Clean Air Act (CAA) title V operating permit issued to the Tucson Electric Power Company Springerville Generating Station located in Apache County, Arizona. The Order responds to a June 20, 2022 petition submitted by the Sierra Club and the National Parks Conservation Association (the "Petitioners") requesting that the EPA object to the final operating permit No. 65614 issued by the Arizona Department of Environmental Quality (ADEQ). The Order constitutes a final action on the petition addressed therein.

Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorize any person to petition the EPA

Administrator to object to a title V operating permit within 60 days after the expiration of the EPA's 45-day review period if the EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the permitting authority, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after the comment period closed.

On June 20, 2022, the Petitioners submitted a petition to the EPA pursuant to section 505(b)(2) of the CAA and 40 CFR 70.8(d). The petition requested that the EPA object to significant permit revision No. 91093 to the CAA title V operating permit issued by the ADEQ for Tucson Electric Power Company Springerville Generating Station (Permit No. 65614) in Apache County, Arizona. On January 19, 2023, the Administrator issued an Order denying the petition.
